# Global Parts & Service Training and Open House

Replacement parts for your steam generation, environmental and auxiliary equipment are essential to the daily operation of your plant. Babcock & Wilcox (B&W) offers chute-to-stack components and services for any plant configuration including parts alliances, inventory stocking programs and standard or custom parts.

Please join us for a training and open house program this summer, including tours and demos at our newly-expanded Salt Lake Service Center, to interact with parts and service experts and collaborate on cost-effective solutions. See details below.
